Division Description

The Capitol Commission's mission is to oversee all renovation and restoration efforts of the Capitol building and grounds. This includes selecting an Architect of the Capitol, developing a Master Plan addressing the building, maintaining its furnishings and grounds, and overseeing any modification to the physical structure of the building. Once the Legislature authorizes the Capitol restoration and related efforts, the Commission's activity will undoubtedly increase.

During the 2007 Legislative Session, the Legislature approved HCR47 which authorized financing for the restoration and expansion of the Statehouse. The Capitol Commission will be instrumental in the execution and completion of this project. The Legislature increased the Commission's budget as a result of HCR47's passage. The Commission will likely need these additional resources, to some extent, during the entirety of the planned 30-month restoration and expansion.
